A. CONTEXT

Social and economic context

Observing ^{of} post-1967 borders, the Occupied Palestinian Territories -- the West Bank and Gaza Strip -- are non-contiguous units on the east and southwestern sides of the State of Israel. The West Bank covers a total area of approximately 5800 sq km. It is surrounded by Israel on all sides except for its eastern border, which it shares with Jordan. The territory stretches east to the Jordan River and Dead Sea, north slightly beyond the 32°30' parallel, and south almost to the 31°20' parallel. It extends westward generally between the 34°50' and 35°00' parallels, except at Jerusalem, where it darts eastward, bisecting the city. The western border of the West Bank brings it within fifteen kilometres of the Israeli city of Tel Aviv.

The Gaza Strip covers an area of approximately 360 km. It borders Egypt to the southeast and the Mediterranean Sea to the northeast. The Strip is, at its narrowest, roughly five kilometres and, at its widest, slightly more than ten kilometres. It is less than forty kilometres in length.

In terms of topography, the Occupied Territories encompass several distinct zones: the central highlands, which cover more than half of the total area, have high rainfall, slopes prone to erosion, and alluvial plateaux suitable for agriculture; the semi-arid eastern slopes, which accommodate grazing and some field crops; the fertile plains, which are potentially highly productive for vegetables and fruit; the semi-coastal region, which has high rainfall; and the Gaza coastal zone, which has low rainfall but an abundance of springs and wells. Approximately one-fourth of the land in the Occupied Territories is currently cultivated.

The Occupied Territories' primary cities and towns are as follows (approximate Palestinian populations in parentheses):

Gaza City (220k)	Khan Younis (80k)
East Jerusalem (150k)	Qalqiya (30k)
Nablus (120k)	Tulkarm (30k)
Rafah (80k)	Ramallah (30k).

Arabic is Palestine's primary and, under the PLO's Draft National Authority Law, "official" language. English and Hebrew are also widely spoken.

Palestinian culture reflects both the population's predominantly Arab and Islamic origins and the waves of migrations by Europeans, Greeks, Romans, Turks, Persians, and Jews over the last three millennia. Although most Palestinians are Muslim, the country also has a sizable Christian-Palestinian community, a result of its unique position as spiritual centre of both religions, as well as of Judaism. Although the Palestinian liberation movement has traditionally been dominated by secularists, religious heritage remains an important facet of Palestinians' social and political identities.

Palestinian society has retained a largely rural character, urban centres more closely resembling small towns than cities. 65% of Palestinians in the Occupied Territories live in rural villages, only 35% having settled in towns. Even in the Gaza Strip, where a vast majority of the inhabitants reside in urban environments, rural culture has survived.

Accurate population data on the Occupied Territories is presently unavailable, since no formal census has been taken since September, 1967. Based on information from the Israeli Central Bureau of Statistics, which annually updates 1967 population figures based on reported births and deaths, the Palestinian population of the West Bank (excluding East Jerusalem) numbered 1,052,000 by year-end 1992, giving it a population density of 260 per sq km. East Jerusalem had a Palestinian population of between 142,000 and 150,000. The Gaza Strip was estimated to have a Palestinian population of 717,000, making it one of the most crowded areas in the world, with a population density of 2100 per sq km. Researchers attempting to verify these figures, however, have concluded that they underestimate the population of the Occupied Territories by 10 to 15 percent. Accordingly, the World Bank has suggested that "organizing a new population census should be accorded high priority by the authorities."

The Palestinian population in the Occupied Territories continues to grow rapidly and at an increasing rate -- 5.2% in 1992 versus 2.2% in 1968 -- due primarily to a high birth rate (3.8%). The territories consequently have an extremely young population, 20.4% under five years old, 50% under fifteen years old, and 60% born after 1967. More than a million of the Palestinians in the Occupied Territories have been classified by UNRWA as refugees, almost half of whom live in twenty-eight overcrowded refugee camps.

Economic activity in the Occupied Territories declined in the 1980s, particularly during the *intifadah*; it has picked up recently, however, as a result of expectations of peace. In 1993, in response to a request by the Multilateral Working Group on Economic Development (one of the working groups created during the Middle East Peace Talks), the World Bank conducted a comprehensive analysis of the Occupied Territories' economic situation and needs. Based on Israeli-supplied statistics, the Bank determined that the Territories had a 1991 per capita GNP (the income of the residents in the Occupied Territories) of US\$1,715 and a per capita GDP (the income generated in the Territories) of US\$1,275. These figures placed the Territories approximately at parity with Tunisia and Turkey and substantially ahead of Jordan, Egypt, and Morocco. The World Bank noted, however, that the population figures used to compute these statistics were likely underestimated and that the Territories' economic situation was probably much less favourable. The Bank also pointed out that there remains a serious disparity between the per capita GNP's of the West Bank (\$2000) and the Gaza Strip (\$1230).

The Occupied Territories' economy is primarily service-oriented, agriculture accounting for roughly 30 percent of GDP, industry about 8 percent, construction around 12 percent, and services (public/community, trade, transport, etc.) the remaining 50 percent.

Employment and wage levels in the Territories remain stunted. While the Palestinian labour force in the Territories has doubled over the last 25 years, employment opportunities have grown by only 25%. Unemployment hovers between 25% and 40%, sometimes rising to 100% during curfews and closures. Moreover, only 39% of the working-age population in the Territories are part of the labour force, reflecting in part the unusually low level of female

participation of 3%. Wage levels averaged \$310/month in the Territories and \$450/month for labourers working in Israel. These averages fall below the Israeli minimum wage and 20% to 50% below the wages of Israeli workers of the same age and with the same qualifications.

As reflected above by the considerable difference between the Territories' GNP and GDP, a significant portion of the Palestinian workforce in the Occupied Territories is employed in Israel, overwhelmingly in semi-skilled and unskilled jobs. As the World Bank observed, "A striking feature of the OT [Occupied Territories] economy is its heavy dependence on the Israeli economy. Until recently, about one third of the OT labour force worked in Israel (mostly on a daily commute basis), and earnings from these workers accounted for more than one quarter of the GNP of the OT. Dependence on the Israeli job market is especially acute in the Gaza Strip, where over 39% of the work force has been employed in Israel (compared to 31% in the West Bank).

According to the World Health Organization (WHO), 80% of Palestinians live in poverty. Health conditions in the Occupied Territories, accordingly, are poor. Although there have been some improvements in life expectancy (now 60-65 years) and the infant mortality rate (now 40-50 per 1,000 births), these improvements have not matched those in Jordan and Syria during the same period. Additionally, the WHO has observed a number of urgent health problems within the Territories, particularly in Gaza. As a result of limited waste disposal services, "solid waste is piled up on the streets or deposited in rubbish bins and transported in a limited number of vehicles to be dumped in open areas that are unsuitable for such disposal and become breeding grounds for rodents and insects." Poor environmental conditions have resulted in increasing numbers of cases of epidemic and parasitic diseases, particularly in refugee camps. Further, as many as 67% of the women in refugee camps in the Gaza Strip suffer from anaemia, and few health care centres in the Territories provide maternal and child health services. *

Most health care in the Territories is provided by the voluntary sector, followed by the National Authority and UNRWA. Presently, there are only 1.4 hospital beds per 1000 people, the same number as in 1967 and less than half the minimum recommended by WHO.

As noted above, more than a million of the Palestinians in the Occupied Territories have been classified by UNRWA as refugees, almost half of whom live in twenty-eight overcrowded refugee camps. An average of 2.3 persons live in each room, a high number for the prevailing income level. Moreover, heating of homes is inadequate and often generated by coal or fuel oil that emits health-threatening substances. Exacerbating this situation, approximately 2,300 Palestinian houses were demolished since 1967.

Palestinians have traditionally placed a great emphasis on education. Accordingly, despite inadequate resources, the proportion of Palestinians who complete higher education is higher than in any other Arab country (18 college graduates per 1,000 population). As a result of overcrowding and school closures during occupation, however, educational standards in the Occupied Territories fall beneath international norms, Palestinian children receiving lower-than-average scores on standardized tests and 40% of the population (ages 15+) remaining illiterate.

Most (93%) primary and secondary level students attend schools run either by the Palestinian Authority or UNRWA. According to the World Bank, these educational facilities

are generally in poor condition, the buildings requiring repair, the libraries and laboratories inadequate, and the qualifications of educational personnel substandard. Palestinians have also established eight universities in the Occupied Territories, two of which are in Gaza.

The Territories physical infrastructure requires serious repair and development. Although Israel constructed modern roads to link settlements with Israeli cities, these roads often bypass Palestinian towns and villages, which are served by poorly maintained roads with inadequate lighting and marking. As the World Bank has noted, the poor condition of these roads increases the costs of transporting goods, particularly perishable agricultural products.

The Territories lack a number of basic services. Although 90% of the households have access to safe water, the supply falls far below that in other countries in the region (60l. per capita compared to 115L in Tunisia, 137L in Jordan, and 280L in Israel). Electric utilities are in poor condition, needing rehabilitation and upgrading, and 138 Palestinian villages do not have electric power. Solid waste collection and disposal is also grossly inadequate, raising serious health and environmental concerns. Indeed, fewer than 30% of the houses in the Territories are connected to sewage systems, most relying on cesspits. Moreover, only 2% of the population has telephone service, seriously compromising the development of Palestinian service industries.

Recent developments

The needs assessment mission conducted by the Centre for Human Rights in June 1995, noted that the Palestinian National Authority has inherited, after years of occupation, a complex legal system, devastated national institutions, and a diffused collection of independent initiatives for human rights protection. Efforts to enhance and entrench the rule of law have not yet been firmly developed or institutionalized. The scars of occupation remain deep in all sectors of society, and continue to impact forcefully upon the realization by the Palestinian people of their economic, social, cultural, civil and political rights throughout the Territories. Economic development, civil and political institutions, and social programming have been left in tatters, and continuing limitations on Palestinian sovereignty, frequent closures of the Territories, and economic hardship present ongoing challenges to meaningful improvement of the situation.

While the developments made possible by the peace process have presented new, indeed dramatic historic possibilities for the improvement of the human rights situation in the Territories, they have, as well, presented a double-edged sword for the cause of human rights. On the one hand, the Palestinian National Authorities have repeatedly expressed their conviction that the promotion of human rights and democracy are key to the success of the peace process itself. On the other hand, the security concerns of both parties have placed overwhelming pressures on the Palestinian Authority to maintain order and the security of both parties.

The findings of the needs assessment mission thus indicated far-reaching needs in the field of human rights in Palestine. The National Palestinian Authority in the autonomous areas is confronted with enormous challenges as it endeavours to establish the necessary civil, political, economic, social and cultural infrastructures necessary to entrench the rule of law, and to meet the fundamental needs of the Palestinian people residing in the territories. Owing to the devastating effects of occupation, both to political institutions and to economic development, infrastructure reconstruction will not be possible without substantial and sustained international assistance to all relevant sectors. As such, the donor community and the full range of United Nations agencies and programs are actively involved in the reconstruction process.

Efforts at reconstruction of the rule of law in the Occupied Territories are, however, well served by the number of highly qualified human rights and legal experts and skilled human rights organizations in the Territories. In addition to many long-standing non-governmental human rights organizations in both the West Bank and Gaza, an independent Palestinian human rights commission has now been established, with juridical personality, and a membership comprising several prominent figures from Palestinian society. A Presidential Advisor on Human Rights has been appointed, and the Ministry of Justice is functioning within the Palestinian National Authority. Nevertheless, in the face of the considerable human rights task at hand, such organizations will require the assistance of the international human rights community, toward the strengthening of their organizational, material, financial and substantive capacities.

Local NGOs

Several Palestinian human rights organisations were established to monitor the human rights situation under the Israeli Occupation. Al-Haq, the West Bank affiliate of the International Commission of Jurists (ICJ) was established in 1979 for the purpose of promoting the rule of law. Its programme includes documenting human rights violations, publishing legal research, and providing legal advice and services. It also focuses on human rights education, and has special projects on particular disadvantaged groups like women, children, and disabled people. Its activities cover all the West Bank, including East Jerusalem, and Gaza Strip.

The Gaza Centre for Rights and law was established in 1985. It is the Gaza Affiliate of the ICJ. Its programme also includes documentation, research and publications, and legal services. It is based in Gaza City and its activities are limited to the Gaza Strip.

The Palestinian Centre for Human Rights was established in Gaza in 1995. Its programme includes a broad range of activities aimed at human rights monitoring, education, advice, study and activism, and covers both the Gaza Strip and the West Bank.

The Palestine Human Rights Information Centre was established in Jerusalem in 1986 under the auspices of the Arab Studies Society. It is devoted to monitoring and documenting human rights issues. In addition to the above, there are some other local organisations that specialise in dealing with particular fields of human rights. Among these are Mandela Institute for Political Prisoners, and Land and Water Institute.

National human rights institutions

On June 8 1994, the Palestinian Independent Commission for Citizen's Rights was established. The Commission consists of a fourteen member Preparatory Board and upon the election of a chair, the Legislative Council established a Permanent Board. The President of the Palestinian Authority has endorsed the establishment of the Commission, and the National Authority Law endows it with "juridical personality."

The Commission defines its mandate as contributing to "a comprehensive Palestinian program of reconstruction and development for the establishment of the Palestinian State on a solid foundation of commitment to the principles of human rights, basic freedoms, democracy, ethical codes of behaviour, and accountability in all the legislative, executive, and administrative endeavours of the Palestinian Authority." Accordingly, it functions as "ombudsman or *Diwan Mathalem (Court of Grievances)*," through review of legislation, human rights education, and monitoring of the Palestinian National Authority. The Commission, moreover, has committed to promoting the Palestinian Declaration of Independence and "all universal and international declarations and charters of human rights."

More specifically, the Commission's current Work Program includes the following projects: review of the Basic Law and relevant by-laws and regulations emanating therefrom; contributing to negotiations regarding the "unconditional non-discriminatory release" of Palestinian prisoners and "the illegality and consequences of the closure of Jerusalem;" examining the work of negotiations-related institutions and identifying conflicts of interest; monitoring the activity of the Palestinian police force and security structures; pursuing individual and collective human rights cases; and encouraging free and democratic elections.

The Commission "undertakes to act with accountability, transparency, openness, accessibility of records, and in the service of citizen's rights and the rule of law" and has refused to accept any conditional financial contributions or any funding "from sources whose policies are inconsistent with the commission's objectives and with the national rights of the Palestinian people."

Technical cooperation and coordination

Since the signing of the Declaration of Principles in September of 1993, the various agencies and programs of the United Nations system have become increasingly active in supporting the Palestinian National Authority in its efforts to reconstruct national capacities in the areas of, *inter alia*, economic and social development, health, housing, education, public safety and security, infrastructure, environment, transportation, communications, public financing, employment creation, agriculture, tourism, and the private sector. Under the coordination of the United Nations Special Coordinator in the Occupied Territories, appointed by the Secretary-General in 1994, a coordinated, action oriented structure for international cooperation with the Palestinian National Authority has been developed, comprising several complementary levels of support and contact.

At the top of the structure, from the international side, is the Special Coordinator himself. The Special Coordinator and his staff (UNSCO) are located in Gaza. UNSCO presently acts as the focal point for all United Nations economic, social and other assistance

to the Occupied Territories, and facilitates coordination within the United Nations family, including the World Bank. In general, UNSCO works toward an integrated and unified approach in implementing the development effort launched by the Conference to Support Middle East Peace held in October of 1993 in Washington, D.C. To those ends, UNSCO serves as the focal point for relations with donor community, relevant regional organizations, financial institutions, NGOs, and, of course, the Palestinian National Authority itself. The Special Coordinator also works at the request of the parties to support the implementation of the Declaration of Principles, and holds direct responsibility for all activities which fall outside the sectoral briefs of other United Nations agencies.

At the second level of the institutional framework for assistance to the Palestinians, is the Ad Hoc Liaison Committee (AHLC). AHLC was created in October 1993 by the Multi-lateral Steering Group of the Multi-Lateral Talks on Middle East Peace to support economic and social development in the West Bank and Gaza Strip. AHLC coordinates and promotes assistance efforts of donors, based on pledges made at the October 1993 Conference to Support Middle East Peace in Washington D.C. AHLC includes Canada, Egypt, the EU, Israel, Japan, Jordan, Norway, the PLO for the benefit of the Palestinian Authority, Russia, Saudi Arabia, Tunisia, the United States, and the United Nations. Norway chairs the AHLC, and the World Bank serves as its secretariat.

In addition, a Local Aid Coordination Committee (LACC) was established by AHLC in November of 1994. LACC includes donor representatives and the Palestinian National Authority. It meets monthly in the Territories, is jointly chaired by Norway, the UN, and the World Bank, and has a secretariat composed of UNSCO and the World Bank.

Finally, at the last institutional level, are the Sectoral Working Groups (SWG's). These were established in January 1995, based upon a decision of the LACC. The SWG's promote and coordinate activities of donors in various sectors according to the priorities of the Palestinian National Authority. Membership of each SWG includes a representative of the Palestinian Authority, and of each donor involved. The Palestinian representative is the Gavel-Holder in each SWG, and a donor is assigned to further enhance this coordination. Secretariat functions are carried out by UNSCO.

At a 1995 World Bank Consultative Group meeting in Paris, six sectorial papers covering U.N. agency and donor projects (including the present project) were reviewed, and the resulting donor support has now launched the first unified, integrated and targeted approach to economic and social development in the West Bank and Gaza Strip, articulated collectively by all United Nations agencies and programmes providing assistance to the Palestinians.

The current project is situated within, and forms an integral part, of the overall coordinated programme of assistance, reconstruction and development of the Palestinian Territories, as framed in the document *Putting Peace to Work*, produced by the United Nations and the World Bank, in close cooperation with the Parties to the Peace Accords, twenty-five United Nations Agencies, and all donor countries active in the area.

B. PROJECT JUSTIFICATION

Problems to be addressed

While other sectors are benefitting from international assistance (health, employment, education, etc.), the justice sector has yet to receive substantial attention. In spite of the strong commitment of the Palestinian National Authority to protect the Palestinian people from any abuse, pressures associated with the current peace process to maintain security and to take swift action to punish violations have stretched the legal system beyond its capacity to ensure protection of human rights in the process. This situation is characterised by:

- (a) An absence of coordinated planning for human rights policy in the short, medium and long terms, preventing official strategic developments for the promotion and protection of human rights at the national level;
- (b) A complex maze of laws, comprised of British Mandate, Ottoman, Egyptian, Jordanian, Israeli, and Palestinian texts, often inconsistent, and not adequately reflecting international standards or current Palestinian realities. The result is a lack of legal predictability, a negative impact on human rights, undercutting of donor confidence, and the deterring of investment.
- (c) A system for the administration of justice which lacks the necessary capacity and framework to ensure the effective, humane, and fair execution of its functions, with deficiencies in training, regulations, materials, and policy guidelines for the judiciary, prosecutors, police and prison officials. The legal community, whose crucial activities were largely suppressed under occupation, are confronted with new challenges in bringing legal practice up to pace with rapidly developing changes under autonomy.
- (d) National human rights institutions, and Palestinian NGOs suffer from a shortage of funds and materials necessary to make full use of the substantial expertise residing in their ranks. Such expertise will be vital to the institutional and legal development of the official sector, but has not yet been adequately supported, coordinated and channelled for maximum effect.

In the context of the current phase of Palestinian legal and institutional development, and the exigencies of the situation implicit in the peace process itself, the project intends to address the following:

- (a) Development of human rights policy, in the form of a national plan of action for human rights;
- (b) Strengthening of the system for the administration of justice, with due attention to the role of the Ministry of Justice, the courts, lawyers, prosecutors, police, prison officials, national human rights institutions and non-governmental human rights organizations;
- (c) Development of the legal framework, including the collection, review, consolidation and upgrading of all laws applicable in Palestine;

(d) Fostering of strong domestic human rights organizations.

The project is designed to complement domestic initiatives already under way in both the official and non-governmental organizations of Palestinian society. The focus of the project is on supporting and facilitating such domestic initiatives, while also providing international normative advice and assistance where it is required. Many of the activities comprising the project seek specifically to assist the Palestinian Authority in more efficiently and fully exploiting domestic legal and human rights expertise in its efforts to strengthen the rule of law.

*TRAINING ACTIVITIES METHODOLOGY
FOR ADULT AUDIENCES*

1. OBJECTIVES

Three basic learning objectives will form the basis of all training activities, based on the following three educational needs of participants:

to receive information and develop knowledge - on what human rights standards are, and what they mean;

to acquire or reinforce skills - so that the functions and duties of the target professional audience can be fulfilled effectively with due respect for human rights. Since the simple knowledge of standards is not enough to enable trainees to transfer these rules into appropriate professional behaviour, the acquisition of skills is to be viewed as a process, as skills that are fine-tuned through practice and application. This process may therefore need to be continued, in the light of training needs identified in specific areas of the audience's work, including through other technical cooperation programmes.

to become sensitized, i.e., to undergo a change in (negative) or to reinforce (positive) attitudes, and thence behaviour - so that the audience accepts, or continues to accept, the need to protect and promote human rights, and actually do so in the course of their professional duties. The subjects here are the *values* of the audience. This, too, is a long term process reinforced by further, more technical training. Thus, effective training will aim to improve:

knowledge + skills + attitudes = appropriate behaviour

2. TAILORING COURSES

When arranging training programmes, the principles of audience specificity and relevance will require to observe the following few basic rules:

1) Whenever possible **separate training programmes** will be arranged for different categories within the profession concerned, according to rank, education and particular function. This will allow training to focus on: i) strategy and policy making aspects for senior and managerial personnel; ii) pedagogical aspects for educators and trainers of the group; iii) operational aspects for groups not within the above categories and; iv) aspects of particular relevance to professionals with specific functions

2) The largely **practical and pragmatic orientation** of adult professional audiences will be reflected in the education and training methods adopted. This

means: i) creating the opportunity to translate ideas and concepts into practice; ii) enabling participants to focus on real problems of their profession and; iii) responding to issues of immediate concern to participants raised by them during the programme.

3. *SELECTION OF TRAINERS*

The criteria for the selection of individuals to make presentations and to provide other input on human rights training courses, will mainly be the following: i) expertise in the subject matter; ii) ability to adapt to the methodology of the training programme- especially its interactive aspects and; iii) credibility and reputation - especially amongst practitioners from the relevant field who are to participate in the programme.

Ideally, a panel of trainers will primarily be composed of practitioners from the relevant professional field, accompanied by at least two experts in the field of human rights.

In all training activities, the Centre will brief the trainers on the following matters: (1) Basic historical, geographical, demographic, political, economic, cultural and social information on the country; (2) Basic information on the constitutional and legal arrangements of the country; (3) Human rights and humanitarian law treaties to which the state is a party; (4) Organizational aspects of the professional group to be trained; (5) Categories and numbers of trainees participating in the programme and; (6) Particular issues of current concern in relation to the professional audience for which the programme will be introduced.

4. *CONTENT OF PROGRAMMES*

Specific programmes will be drafted for different audiences. Examples of content for different audiences can include the following topics:

4.1. Programme for Judges, Lawyers, Magistrates, and Prosecutors

International Sources, Systems and Standards for Human Rights in the Administration of Justice; Human Rights during Criminal Investigations, Arrest, and Pre-Trial Detention; The Independence of Judges and Lawyers; The Elements of a Fair Trial; The Administration of Juvenile Justice; Protection of the Rights of Women in the Administration of Justice; Legal Guarantees and Issues of Sensitization; Human Rights under States of Emergency; Standards for the Protection of Prisoners; The Role of the Courts in Protecting Economic and Social Rights; Non-Custodial Measures; and Non-Discrimination and Equal Justice.

4.2 Programme for Law Enforcement Officials

International Sources, Systems and Standards for Human Rights in the Administration of Justice; Ethical and Legal Conduct; Policing in Democracies; Non-Discrimination in Law Enforcement; Police Investigations; Arrest; Detention; The use of force; Accountability for the use of force; Permissible circumstances for the use of firearms; Procedures for the use of firearms; Civil Disorder; States of Emergency; Protection of Juveniles; The Human Rights of Women; Refugees; Non-Nationals; Victims; Police Command and Management Issues and; Police Violations of Human Rights.

4.3 Programme for Prison Administrators

International Sources, Systems and Standards for Human Rights in the Administration of Justice; Ethical and Legal Conduct; Non-Discrimination in Prisons; Prisoners Rights, Regulations, Procedures and Complaints Mechanisms ; Inspections; Treatment; Discipline and Punishment; Instruments of Restraint; The use of force; Accountability for the use of force; Protection of Juveniles; Special Standards for Women; Non-Custodial Measures; Privileges, Work, Education and Recreation; Social Relations and After-Care; Prison Staff: Recruitment, Hiring, Training, and Supervision; Command and Management Issues and; Prison Administrators Violations of Human Rights.

5. TRAINING METHODOLOGY

5.1 The Centre's approach

All training activities will observe an approach comprised of the following fundamental elements:

- a) **Collegial Presentations** to be delivered by practitioners in the relevant field;
- b) **Training the Trainers** to build local capacity;
- c) **Pedagogical Techniques** to secure the active engagement of the participants;
- d) **Audience-Specificity** in the selection of subject matter, standards, and approach;
- e) **Practical Approach** including reference to means for the effective, legal and humane performance of the duties of the target audience;
- f) **Comprehensive presentation of standards** relevant to the duties of the target audience;
- g) **Teaching to Sensitize** participants to the importance of human rights and their own potential for (unintentional) violative behaviour
- h) **Flexibility of design and Application** to ensure adaptability of content, materials and approach to various cultures, levels of education, and local needs;
- i) **Evaluation tools**, including pre and post course testing and course assessment.

5.2 The participatory method

For maximum effect, a few basic principles will be kept in mind in applying the participatory training method described above. This method will require an approach which is interactive, flexible, relevant, and varied, as described below:

Interactive-- all programmes will imply the use of a participatory, interactive training methodology;

Flexible-- it is not advisable to attempt to force, or order trainees to participate;

Relevant--The unspoken question of the trainee throughout the course will be: "what does this have to do with my daily work ?" The extent to which the trainer continuously can answer this question will be an important measure of her success. Every effort will therefore be made to ensure that all teaching materials is relevant to the work of the audience, and that such relevance is made clear where not self-evident;

Varied--To secure and retain the active engagement of participants, it is best to vary the teaching techniques used throughout the course. The use of a varied selection of techniques, alternating discussions with role-plays, and case-studies with brainstorming, as appropriate to the subject matter will be encouraged;

Broadly, this means that the following methods and approaches will adopted:

Presentation of standards - short presentations on the human rights standards relative to a given aspect of the work of the profession, and on how such standards may be effectively applied by the audience;

Application of participatory techniques - to enable participants to use their knowledge and experience to translate ideas and concepts expressed in the presentation into practice and to enable participants to consider the practical implications of human rights standards for their day to day work;

Focus and flexibility - to enable participants to focus on matters of real and current concern; and to enable educators and trainers to adapt to participants' needs as the course progresses.

5.3 Participatory techniques

In all training programmes, selected participatory techniques will be provided as follows: (1) Presentation and discussions; (2) Panel discussion; (3) Working groups; (4) Case studies; (5) Problem solving/brain storming; (6) Simulation/role play; (7) Field trips; (8) Practica (the practical exercise); (9) Round-table discussions and; (10) Visual aids.

Agreement between the Palestine Liberation Organization (PLO) and the United Nations Development Programme (UNDP)

1. In response to General Assembly resolution 33/147 of December 1978, the UNDP initiated its Programme of Assistance to the Palestinian People (PAPP), through which it has, since 1980, been implementing both capital and technical assistance projects throughout the occupied Palestinian territory (OPT). Since that time, consultations between the UNDP and the PLO have taken place regularly regarding the work of the UNDP in the OPT. In 1981, the UNDP established its office in East Jerusalem to oversee project implementation. The operation of the UNDP in the OPT is headed by Special Representative of the UNDP Administrator, who carries out responsibilities from that office. Recently, the UNDP established a post in Gaza to follow-up its activities in that area.

2. The signing of the Declaration of Principles on Interim Self-Government Arrangements, in Washington, D.C. on 13 September 1993, between the Palestine Liberation Organization and the Government of Israel has created a new situation which should be reflected in the future activities of the UNDP in the OPT. The UNDP has actively participated in various meetings and missions emanating from the peace process, which have involved the United Nations, the World Bank, and donor countries, to follow-up the issue of assistance to the Palestinian people during the transitional period.

3. In its 48th session, the General Assembly adopted, by consensus, resolution 48/213 of December 1993 on "Assistance to the Palestinian People", which provides an additional foundation for the international community and the United Nations system with regard to the issue of assistance to the Palestinian people.

4. Consultations between the PLO and the UNDP have taken place taking the above into

consideration, during which an evaluation of the work done by PAPP has also been conducted. It was agreed that all projects which have been initiated should be completed and that all future projects will be subject to the provisions of this agreement. Such projects will involve, inter alia, work in the fields of public sector-institution building, economic development, human development, and environmental management. In addition to the continuing support from the central resources of the UNDP, the UNDP is seeking external funding to carry out capital and technical assistance activities of approximately \$80 million.

5. In carrying out its activities, the UNDP will seek to ensure the association, whenever relevant, of the specialized agencies and other organizations of the United Nations system, within the framework of the United Nations coordinating mechanism. The UNDP will also work with other members of the international donor community towards the fullest coordination of external assistance.

6. During consultations, the PLO informed the UNDP that the Palestinian Council for Development and Reconstruction (PECDAR) will be the Palestinian agency responsible for coordinating external assistance, and as such will be cooperating with the UNDP.

7. In light of the foregoing, the PLO and the UNDP have entered into this agreement.

Article I

Scope of the Agreement

This agreement will govern the future operations of the UNDP in the occupied Palestinian territory, including the basic conditions under which the UNDP and its executing agencies shall assist the Palestinian Authority in carrying out its development projects, and under which such UNDP-assisted projects shall be executed.

Article II
Forms of Assistance

1. UNDP assistance under this Agreement may consist of:

(a) the services of advisory experts and consultants, including consulting firms or organizations, selected by and responsible to, the UNDP or the Executing Agency concerned;

(b) the services of operational experts selected by the Executing Agency, to perform functions of an operational, executive or administrative character as civil servants or as employees of such entities as may be designated by the Palestinian Authority;

(c) the services of members of the United Nations Volunteers (hereinafter called volunteers);

(d) the services of expatriate Palestinians through the Programme entitled the Transfer of Knowledge through Expatriate Nationals (TOKTEN);

(e) equipment and supplies not readily available in the occupied Palestinian territory;

(f) seminars, training programmes, demonstration projects, expert working groups and related activities;

(g) scholarships and fellowships, or similar arrangements under which candidates nominated by the Palestinian Authority and approved by the Executing Agency concerned may study or receive training; and

(h) any other form of co-operation which may be agreed upon by the Palestinian Authority and the UNDP.

2. Requests for assistance shall be presented by the Palestinian Authority to the UNDP through the Special Representative of the Administrator in the OPT, in the form and in accordance with the procedures established by the UNDP for such requests. The Palestinian Authority shall provide the UNDP with all appropriate facilities and relevant information to appraise the request, including an expression of intent with respect to the follow-up of investment-oriented projects.

3. Assistance may be provided by the UNDP through the Palestinian Authority either directly, with such external assistance as is deemed appropriate, or through an Executing Agency, which shall have primary responsibility for carrying out UNDP assistance which shall have the status of an independent contractor for this purpose.

4. The UNDP will continue to maintain a mission in the OPT headed by the Special Representative of the Administrator, who will continue to operate from the present UNDP office in East Jerusalem. The UNDP mission shall have such other staff as it may deem appropriate to its proper functioning.

5. Upon completion of the appraisal of the request, the UNDP will co-operate with the Palestinian agency(s) or department(s) concerned and the Executing Agency, if any, in formulating a Project Document to govern all aspects of project execution, for signature by all parties.

Article III

Execution of Projects

1. The Palestinian Authority shall remain responsible for its UNDP-assisted development projects and the realization of their objectives as described in the relevant project documents, and shall carry out such parts of such projects as may be stipulated in the provisions of this Agreement and such Project Document. The UNDP undertakes to complement and supplement the participation of the Palestinian Authority in such projects through assistance to it in

pursuance of this Agreement and the Work Plan forming part of such Project Documents, and through assistance to the Authority in fulfilling the stated intent with respect to investment follow-up. The Palestinian Authority shall keep the UNDP currently informed of the agency(s) directly responsible for participation in each UNDP-assisted project.

2. Compliance by the Palestinian Authority with any prior obligations agreed to be necessary or appropriate for UNDP assistance to a particular project shall be a condition of performance by the UNDP and the Executing Agency of their responsibilities with respect to that project. Should provision of such assistance be commenced before such prior obligations have been met, the project may be terminated or suspended without notice and at the discretion of the UNDP.

3. In the performance of their duties, advisory experts, consultants and volunteers shall act in close consultation with the Palestinian Authority and with persons or bodies designated by it, and shall comply with such instructions as may be appropriate to the nature of their duties. Operational experts shall be solely responsible to, and be under the exclusive direction of, the Palestinian Authority or the designated concerned agency, but shall not be required to perform any functions incompatible with their international status or with the purposes of the UNDP or the Executing Agency.

Article IV

Information Concerning Projects

1. The Palestinian Authority shall furnish the UNDP with such relevant reports, maps, accounts, records, statements, documents and other information as may be requested concerning any UNDP-assisted project, its execution or its continued feasibility and soundness.

2. The UNDP undertakes that the Palestinian Authority shall be kept currently informed of the progress of its assistance activities under this Agreement. Either party shall have the right, at any time, to observe the progress of operation on UNDP-assisted projects.

3. The Palestinian Authority shall, subsequent to the completion of a UNDP-assisted project, make available to the UNDP at its request information as to benefits derived from and activities undertaken to further the purposes of that project, including information necessary or appropriate to its evaluation or to evaluation of UNDP assistance, and shall consult with and permit observation by UNDP for this purpose.

4. Any information or material which the Palestinian Authority is required to provide to the UNDP under this Article shall be made available by the Authority to an Executing Agency at the request of the Executing Agency concerned.

5. The Parties shall consult each other regarding the publication, as appropriate, of any information relating to any UNDP-assisted project or to benefits derived therefrom. However, any information related to any investment-oriented project may be released by the UNDP to potential investors, unless and until the UNDP has been requested by the Palestinian Authority in writing to restrict the release of information relating to such projects.

Article V

Participation and Contribution of Palestinian

Institutions in Execution of Projects

1. In fulfillment of the responsibility of the Palestinian Authority to participate and cooperate in the execution of a project assisted by the UNDP under this Agreement, the Authority shall contribute the following in kind to the extent detailed in relevant Project Documents:

(a) Local counterpart professional and other services, including counterparts to operational experts;

(b) Land, building, and training and other facilities available locally; and

(c) Equipment, materials and supplies available or produced locally.

2. Whenever the provision of equipment forms part of UNDP assistance to the OPT, the

Palestinian Authority will try, to the extent possible, to meet charges relating to customs clearance of such equipment and its transportation.

3. The Palestinian Authority shall also meet the salaries of trainees and recipients of fellowships during the period of their fellowships.

4. The cost of items constituting the contribution of the Palestinian Authority to the project and any sums payable by the Authority in pursuance of this Article, as detailed in Project Budgets, shall be considered as estimates based on the best information available at the time of preparation of such Project Budgets. Such sums shall be subject to adjustment whenever necessary to reflect the actual cost of any such items purchased thereafter.

5. Suitable signs at each project identifying it as one assisted by the UNDP and the Executing Agency shall, as appropriate, be displayed by the Palestinian Authority.

Article VI

Relation to Assistance from Other Sources

1. In the event that assistance towards the execution of a project is obtained by either Party to this Agreement from other sources, the Parties shall consult each other and the Executing Agency with a view to effective coordination and utilization of such assistance. The obligations of the Parties hereunder shall not be modified by any arrangements they may enter separately into with other entities co-operating with them in the execution of a project.

Article VII

Use of Assistance

1. The Palestinian Authority shall exert its best efforts to make the most effective use of the assistance provided by the UNDP and shall use such assistance only for the purpose for which it is intended, as stated in the relevant Project Document.

Article VIII

Facilities for Execution of UNDP Assistance

1. The Palestinian Authority shall take those appropriate measures which may be necessary to exempt the UNDP, its Executing Agencies, their experts and other persons performing services on their behalf from regulations or other legal provisions which may interfere with operations under this Agreement, and shall secure them such other facilities as may be necessary for the speedy and efficient execution of UNDP assistance, including all necessary licenses and permits.
2. Assistance under this Agreement being provided for the benefit of the Palestinian people, the Palestinian Authority shall bear all risks of operations arising under this Agreement. It shall be responsible for dealing with claims which may be brought by other parties against the UNDP or an Executing Agency, their officials or other persons performing services on their behalf, and shall hold them harmless in respect of claims or liabilities arising from operations under this Agreement. The foregoing provisions shall not apply where the Parties and the Executing Agency have agreed that a claim or liability arises from the gross negligence or willful misconduct of the above-mentioned individuals.

Article IX

General Provisions

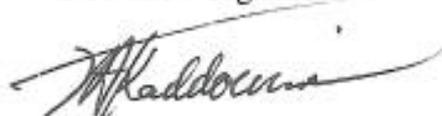

1. This Agreement shall enter into force upon signature. It shall continue in force until termination under paragraph 3, below.
2. This Agreement may be modified by written agreement between the Parties hereto. Any relevant matter for which no provision is made in this Agreement shall be settled by the Parties in keeping with the relevant resolutions and decisions of the appropriate organs of the United Nations. Each Party shall give full sympathetic consideration to any proposal advanced by the other Party under this paragraph.

3. This Agreement may be terminated by either Party by written notice to the other and shall terminate sixty days after receipt of such notice.

4. The obligations assumed by the Parties under Articles IV (concerning project information) and VII (concerning the use of assistance) hereof shall survive the expiration or termination of this Agreement. The obligations assumed by the Palestinian Authority under Article VIII (concerning facilities for project execution) shall also survive the expiration or termination of this Agreement to the extent necessary to permit orderly withdrawal of personnel, funds and property of UNDP and of any Executing Agency, or of any persons performing services on their behalf under this Agreement.

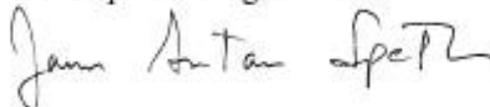

IN WITNESS WHEREOF the undersigned, being duly authorized thereto, signed the present Agreement in English in two copies at New York on this 9th day of May 1994 and at Tunis on this 9th day of May 1994.

Israel

Dear General Mordechai,

This follows the letter from the United Nations Special Coordinator for the Middle East Peace Process to the Head of the Coordination of Government Activities in the Territories unit (COGAT), dated 7 September 2014, and his reply dated 12 September 2014, regarding the Gaza Reconstruction Mechanism (hereinafter referred to as "GRM" or the "Reconstruction Mechanism").

Following discussions held between the Ministry of Foreign Affairs of Israel (MFA), COGAT and the United Nations Office for Project Services (UNOPS); and in light of the fact that UNOPS, as a subsidiary organ of the United Nations, established by the General Assembly in its decision 48/501 of 19 September 1994, pursuant to its authority under Article 22 of the Charter of the United Nations, provides its partners, inter alia, with advisory, implementation and transactional support services in sustainable project management, infrastructure and procurement; and whereas UNOPS has been implementing some of the activities of the United Nations under the GRM; and in light of the good cooperation between UNOPS and the State of Israel, and with the aim of enhancing this cooperation and facilitating the implementation of the current and future activities of UNOPS under the GRM, I have the honor to suggest the following arrangement between the State of Israel and UNOPS:

1. The MFA and COGAT, on behalf of the State of Israel, shall facilitate the performance of the activities and functions of UNOPS under the Reconstruction Mechanism, including implementation of the Materials Monitoring Unit under the said Mechanism.
2. UNOPS may carry out other projects in the West Bank or the Gaza Strip in the areas of project management, infrastructure and procurement, in coordination with COGAT, and shall provide a periodical report of its ongoing and future projects every six (6) months to COGAT and the MFA.
3. The 1946 Convention on the Privileges and Immunities of the United Nations (henceforth: the General Convention) shall be applicable to UNOPS, as a subsidiary organ of the United Nations.

4. UNOPS' offices shall cooperate with the competent authorities in the State of Israel, in a manner consistent with the General Convention, to facilitate the proper administration of justice and to uphold respect for local laws and regulations therein.
5. The Executive Director of UNOPS will appoint a Director for the UNOPS offices and define the Director's authority and responsibilities.
6. The UNOPS offices will be staffed by the officials assigned to the offices, experts on mission, and persons performing services for UNOPS (hereinafter referred to collectively as "UNOPS personnel").
7. UNOPS personnel who are not residents of Israel, the West Bank or the Gaza Strip shall be granted multiple-entry visas free of charge prior to their entry into Israel, subject to Israel's internal procedures. The visas shall be valid for a period of one year, and shall be extended upon request by UNOPS, subject to the extension of the official's post.
8. Once the abovementioned visas have been issued, all entries and exits by UNOPS personnel concerned to and from the State of Israel shall take place via Israel's international airport or other international crossing points.
9. UNOPS personnel residing in Israel, the West Bank or the Gaza Strip will be granted the permits needed for free movement in order to perform their tasks. The granting of such permits shall be done in accordance with the current standard practice related to the granting of permits to UN personnel of similar status.
10. The details of all officials, experts on mission, and persons performing services for UNOPS shall be notified to the MFA.
11. UNOPS officials and experts on mission that are posted in Israel for at least six (6) months shall be provided a yellow MFA card. The names, passport numbers, functions/titles and service terms of the officials and experts on mission shall be communicated to the MFA Protocol Division and to COGAT as soon as these details are known to UNOPS, and prior to their entry into Israel. UNOPS will be responsible for immediately returning the MFA cards upon termination of an official's post.

12. UNOPS and its personnel shall be granted permits to enter the Gaza Strip from Israel and vice versa in order to perform their tasks, upon submission of a request to the Gaza Coordination and Liaison Administration (hereinafter: Gaza CLA) in accordance with the applicable legal and procedural framework concerning all UN agencies operating in the field and the general policy applicable to UN personnel of similar status regarding entry and exit from the Gaza Strip through Israel.
13. UN anti-terrorism vetting procedures shall be applied in respect of locally recruited personnel.
14. The State of Israel shall facilitate the registration and licensing of vehicles for use by UNOPS personnel upon request.
15. UNOPS' activity in the Gaza Strip shall be coordinated with COGAT and the Gaza CLA, including all transfers of goods, equipment, or organization personnel from Israel to the Gaza Strip. Matters concerning the passage of goods, equipment and persons into Gaza shall be conducted in a manner consistent with the General Convention as well as in accordance with the relevant procedures under applicable law.
16. UNOPS' activity in the West Bank shall be conducted in a manner consistent with the General Convention as well as in accordance with the relevant procedures under applicable law and in coordination with COGAT and the Civil Administration. Moreover, UNOPS shall be informed of the procedures and security considerations established by the Israeli authorities in the West Bank. UNOPS shall give due consideration to the latter.

I look forward to receiving a letter from each of you in which you confirm your respective office's consent to the content of this letter. I suggest that this arrangement shall be effective from the date of my receipt of the second such letter for a period of twelve (12) months. The present arrangement may be amended by written consent of both sides. With the prior written consent of both sides, the term of this arrangement may be renewed for subsequent periods of twelve (12) months.

Yours sincerely,

I have the honour to refer to the Exchange of Letters issued by Grete Faremo, United Nations Under-Secretary-General and Executive Director of the United Nations Office for Project Services (UNOPS) on 14 July 2016, the reply from Alon Bar, the Deputy Director General, Division for the United Nations and International Organizations, Ministry of Foreign Affairs of the State of Israel (the Ministry) dated 31 July 2016 and the reply from Major General Yoav Mordechai, Head of Coordination of Government Activities in the Territories (COGAT) dated 2 August 2016. This Exchange of Letters constitutes the arrangement between UNOPS and the Government of the State of Israel regulating matters relating to, and arising out of, the establishment and proper functioning of the UNOPS Office in the State of Israel (the arrangement).

I also have the honour to refer to the subsequent Exchange of Letters between UNOPS and the Ministry dated 18 September 2017 and 10 December 2017, as well as the Exchange of Letters issued by UNOPS dated 11 August 2020 and 8 December 2020, the reply from the COGAT dated 4 November 2020 and the reply from the Ministry dated 12 November 2020 on the extension of the arrangement between UNOPS and the Government of the State of Israel under the same terms and conditions until 10 December 2023.

Following discussions held between UNOPS and the Ministry of Foreign Affairs of the State of Israel, and in order to facilitate the current and future activities of UNOPS, I respectfully propose that the arrangement between UNOPS and the Government of the State of Israel be hereby extended upon the same terms until 10 December 2026.

If the foregoing proposal is acceptable to the Government of the State of Israel, I have the honour to propose that this Letter and your Excellency's reply in the affirmative shall constitute an amendment to the arrangement between the UNOPS and the Government of the State of Israel which shall enter into force on the date of your reply.

Please accept, Excellency, the assurances of my highest consideration.

**BUILD
THE FUTURE**

Jerusalem, 20 December 2023

Mr. Jorge Moreira da Silva
UN Under Secretary General and Executive Director
United Nations Office for Project Services (UNOPS)
Copenhagen

Excellency,

Since 7 October 2023 Israel is undertaking a large-scale military operation against the Hamas terrorist organization that perpetrated horrific atrocities against innocent babies, children, women, elderly, people with disabilities and men, slaughtering, abusing, raping and abducting them from their homes, all the while indiscriminately launching rockets on civilian population in Israel.

In such complicated circumstances, the implementation of the 2016 arrangement, as far as it relates to the activities and functions of UNOPS under the Gaza Reconstruction Mechanism, is currently not clear. The continuation of UNOPS's work in Gaza will have to be reviewed in the future, in accordance with the security situation and other considerations.

In the meanwhile, in light of the good cooperation between UNOPS and the State of Israel and in view of the projects UNOPS has been implementing in the West Bank, we would like to suggest that UNOPS continue carrying out these projects, under the previous conditions including coordination with COGAT, in the area of project management, infrastructure and procurement, with the periodic report of all projects every six months to COGAT and to MFA.

The rest of the arrangements agreed between the State of Israel and UNOPS in the 2016 exchange of letters will continue to be applicable.

I look forward to receiving a letter from you which confirms your respective office's consent to the content of this letter. I suggest that this arrangement shall be effective from the date of my receipt of such a letter for a period of twelve months. The present arrangement may be amended by written consent of both sides.

Yours sincerely,

Amir Weissbrod
Deputy Director General for UN and International Organizations
Ministry for Foreign Affairs of the State of Israel

Dear Sir,

I refer to the 2016 arrangement between UNOPS and the Government of Israel and your letter dated 20 December 2023.

In your letter, you set out the complicated circumstances occasioning the need to review in the future, in accordance with the security situation and other considerations, the continuation of UNOPS work in Gaza relating to the Gaza Reconstruction Mechanism (GRM). Although the GRM is inactive subject to future review, we understand that UNOPS other activities in Gaza unrelated to the GRM, such as the Access Support Project and mine action and explosive ordnance work by UNOPS in support of UNMAS, as well as operationalization of the Mechanism under Security Council resolution 2720 (2023), may continue in close coordination with, and six-monthly reporting to, COGAT and MFA.

In addition, your letter proposes that (a) UNOPS continue implementing the projects it has been implementing in the West Bank, under the previous conditions including coordination with COGAT, in the areas of project management, infrastructure and procurement, with periodic reporting on all projects every six months to COGAT and MFA, (b) the rest of the arrangements agreed between the State of Israel and UNOPS in the 2016 exchange of letters will continue to be applicable, (c) that the proposed arrangements shall be effective from the date of your receipt of my letter confirming consent to the proposals conveyed in your letter, and (d) that the proposed arrangements may be amended by written consent of both sides.

On behalf of UNOPS, I hereby confirm my consent to the content of your letter, with effect from the date of your receipt of this letter and for a period of twelve months, and with the understanding described above in relation to the continuation of UNOPS activities in Gaza that are unrelated to the GRM.

Yours Sincerely,

I

MINISTRY FOR FOREIGN AFFAIRS
JERUSALEM, ISRAEL

14 June 1967

Dear Commissioner-General,

I wish to refer to the conversations I have had with you and your colleagues within the last two days, and to confirm our agreement that, at the request of the Israel Government, UNRWA would continue its assistance to the Palestine refugees, with the full co-operation of the Israel authorities, in the West Bank and Gaza Strip areas.

For its part, the Israel Government will facilitate the task of UNRWA to the best of its ability, subject only to regulations or arrangements which may be necessitated by considerations of military security. On this understanding, we are prepared to agree in principle:

(a) To ensure the protection and security of the personnel, installations and property of UNRWA;

(b) To permit the free movement of UNRWA vehicles into, within and out of Israel and the areas in question;

(c) To permit the international staff of the Agency to move in, out and within Israel and the areas in question; they will be provided with identity documents and any other passes which might be required;

(d) To permit the local staff of the Agency to move within the areas in question under arrangements made or to be made with the military authorities;

(e) To provide radio, telecommunications and landing facilities;

¹ Came into force on 14 June 1967 by the exchange of the said letters.

(f) Pending a further supplementary agreement, to maintain the previously existing financial arrangements with the governmental authorities then responsible for the areas in question, concerning:

- (i) Exemptions from customs duties, taxes and charges on importation of supplies, goods and equipment;
- (ii) provision free of charge of warehousing, labour for offloading and handling, and transport by rail or road in the areas under our control;
- (iii) such other costs to the Agency as were previously met by the governmental authorities concerned.

(g) To recognize that the Convention on the Privileges and Immunities of the United Nations of 13 February 1946,¹ to which Israel is a party, shall govern the relations between the Government and UNRWA in all that concerns UNRWA's functions.

The present letter and your acceptance in writing will be considered by the Government of Israel and by UNRWA as a provisional agreement which will remain in force until replaced or cancelled.

UNITED NATIONS RELIEF AND WORKS AGENCY
FOR PALESTINE REFUGEES IN THE NEAR EAST

14 June 1967

Your Excellency,

I refer to your letter of to-day's date, and wish to confirm that UNRWA is willing to continue its assistance to the Palestine refugees in the West Bank and Gaza Strip areas on the basis proposed in your letter. This will be subject to such further supplementary agreements as may be required, and to detailed arrangements which UNRWA representatives will make with the authorities in the two areas concerned.

¹ United Nations, *Treaty Series*, Vol. 1, p. 15, and Vol. 90, p. 327 (corrigendum to Vol. 1, p. 18).

Naturally, this co-operation implies no commitment or position by UNRWA with regard to the status of any of the areas in question or of any instrument relating to them, but is concerned solely with the continuation of its humanitarian task.

As I explained in our conversation, the facilities enumerated in paras. (a) to (g) of your letter are essential if the Agency is to operate effectively. For this reason I expect that such restrictions as may for the time being be placed on the full use of those facilities will be removed as soon as considerations of military security permit this.

I agree that your letter and this reply constitute a provisional agreement between UNRWA and the Government of Israel, to remain in force until replaced or cancelled. UNRWA's agreement is subject to any relevant instructions or resolutions emanating from the United Nations.

I have the honour to be, Yours faithfully,

Dear Mr. Rydbeck,

This is with reference to the Nuweimeh camp in the Jericho area which has been vacant for several years. In view of the extent of the deterioration of the shelters in the camp and the danger this poses to the health of the people in the area we believe it is in the public interest to clear the area in its entirety.

You may rest assured that the clearance of the area will be arranged at no cost to UNRWA and in a manner designed to cause the minimum inconvenience to all concerned. The area, when cleared, will not be used by the Israel authorities who will return it to the sole possession of UNRWA for appropriate use by UNRWA in accordance with agreed procedures.

Dear Ambassador Elizur,

Please refer to your letter dated 10 July 1985 relating to the Nuweimeh camp in the Jericho area in which you inform me that the Israeli authorities believe it to be in the public interest to clear the entire area, since the camp, due to the deterioration of the shelters, poses dangers to the health of the people in the area.

I concede that the camp has deteriorated to a point where it cannot be restored and that it may pose dangers to the health of the neighbouring population. You will however appreciate that the site of the camp has been made available to the Agency by the Jordanian Government for a certain specific purpose and I am glad to note the assurance in your letter that the camp site, when cleared, will remain at the sole disposal of UNRWA for appropriate use in accordance with agreed procedures and will not be used by the Israeli authorities.

Dear Commissioner-General,

Over the past years, vacant parts of the Ein el Sultan and Aqabat Jabr refugee camps in the Jericho area have suffered large scale deterioration. In view of the danger this poses to the health of the people in the area, we believe it to be in the public interest to clear those vacant parts of the camps which have seriously deteriorated.

I can assure you that the Israeli authorities will not damage any structures in the camps used by local residents, as well as adjacent kitchen gardens cultivated by them. The same applies to UNRWA installations and related structures. Before any demolition or clearance commences, the areas to be left intact will be agreed upon locally with UNRWA on appropriate aerial photographs or by other agreed technical means. Damage caused to roads, waterpipes or other parts of the infrastructure of the camps in connection with the clearance work will be promptly set right by the Israeli authorities at their expense.

The clearance work will be arranged at no cost to UNRWA and in a manner designed to cause the minimum inconvenience to all concerned. The areas, when cleared, will not be used by the Israeli authorities, who will return them to the sole possession of UNRWA for appropriate use by UNRWA in accordance with agreed procedures.

ANNEX I*

Exchange of letters dated 24 June 1994 between the Commissioner-General of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) and the Chairman of the Palestine Liberation Organization for the purpose of facilitating UNRWA to continue to provide its assistance to the Palestinian population in the Gaza Strip and the Jericho Area and in the remainder of the West Bank

24 June 1994

Sir,

I have the honour to refer to the Declaration of Principles on the Interim Self-Government Arrangements signed in Washington on 13 September 1993, and the Agreement on the Gaza Strip and the Jericho Area, signed in Cairo on 4 May 1994, between the Government of the State of Israel and the Palestine Liberation Organization. To the extent the Palestinian Authority assumes powers and responsibilities in the Gaza Strip and the Jericho Area and in the remainder of the West Bank, I wish to confirm our agreement that, at the request of the Palestine Liberation Organization, the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) would continue its assistance to the Palestinian people in these areas.

Accordingly, in order to facilitate the rendering of UNRWA's historic services to the Palestinian people in the West Bank and Gaza Strip and developing fresh initiatives towards their social and economic well being, the Palestine Liberation Organization, as the representative of the Palestinian people, agrees to apply in all relations with UNRWA Articles 100, 104 and 105 of the Charter of the United Nations and the Convention on the Privileges and Immunities of the United Nations, which the Palestine Liberation Organization, not being party to, nonetheless adopts by reference.

Without prejudice to the generality of the foregoing, the Palestine Liberation Organization in particular agrees:

- (a) To ensure the protection and security of the personnel, installations and property of UNRWA;
- (b) To permit unrestricted freedom of entry and exit without delay or hindrance, of supplies, goods and equipment into and out of the area under the control of the Palestinian Authority including movement within the area;

His Excellency Mr. Yasser Arafat
Chairman
Palestine Liberation Organization

* The present annex is being published as received, without formal editing.

(c) To permit unrestricted freedom of movement into, out of, and within the area under the control of the Palestinian Authority;

(d) To recognize UNRWA's right to fly the United Nations flag on premises, vehicles and on other means of transport;

(e) To provide unrestricted communication by radio, satellite, or other means, and to facilitate connections with the United Nations communication network;

(f) To provide, free of charge, landing and port facilities as may become available for the use of the Palestinian Authority, or which may be established within the area under the control of the Palestinian Authority;

(g) To recognize UNRWA's exemption from customs duties, taxes and charges on importation of supplies, goods and equipment; and

(h) To provide, free of charge, all necessary labour for offloading and handling, warehousing and transport by rail or road, of supplies, goods and equipment destined for use in the area under the control of the Palestinian Authority.

If the foregoing represents the understanding of the Palestine Liberation Organization, I wish to propose that this letter and your reply in that sense be regarded as constituting an agreement in the matter.

Accept, Sir, the assurances of my highest consideration.

(Signed) Ilter TÜRKMEN
Commissioner-General

Sir,

I have the honour to refer to your letter of 24 June 1994 in which you have set down our understandings with respect to continuing UNRWA's assistance to the Palestinian population in the West Bank and the Gaza Strip, which letter reads as follows:

"I have the honour to refer to the Declaration of Principles on the Interim Self-Government Arrangements signed in Washington on 13 September 1993, and the Agreement on the Gaza Strip and the Jericho Area, signed in Cairo on 4 May 1994, between the Government of the State of Israel and the Palestine Liberation Organization. To the extent the Palestinian Authority assumes powers and responsibilities in the Gaza Strip and the Jericho Area and in the remainder of the West Bank, I wish to confirm our agreement that, at the request of the Palestine Liberation Organization, the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) would continue its assistance to the Palestinian people in these areas.

"Accordingly, in order to facilitate the rendering of UNRWA's historic services to the Palestinian people in the West Bank and Gaza Strip and developing fresh initiatives towards their social and economic well being, the Palestine Liberation Organization, as the representative of the Palestinian people, agrees to apply in all relations with UNRWA Articles 100, 104 and 105 of the Charter of the United Nations and the Convention on the Privileges and Immunities of the United Nations, which the Palestine Liberation Organization, not being party to, nonetheless adopts by reference.

"Without prejudice to the generality of the foregoing, the Palestine Liberation Organization in particular agrees:

"(a) To ensure the protection and security of the personnel, installations and property of UNRWA;

"(b) To permit unrestricted freedom of entry and exit without delay or hindrance, of supplies, goods and equipment into and out of the area under the control of the Palestinian Authority including movement within the area;

"(c) To permit unrestricted freedom of movement into, out of, and within the area under the control of the Palestinian Authority;

"(d) To recognize UNRWA's right to fly the United Nations flag on premises, vehicles and on other means of transport;

"(e) To provide unrestricted communication by radio, satellite, or other means, and to facilitate connections with the United Nations communication network;

Mr. Ilter Türkmen
Commissioner-General
United Nations Relief and Works Agency

"(f) To provide, free of charge, landing and port facilities as may become available for the use of the Palestinian Authority, or which may be established within the area under the control of the Palestinian Authority;

"(g) To recognize UNRWA's exemption from customs duties, taxes and charges on importation of supplies, goods and equipment; and

"(h) To provide, free of charge, all necessary labour for offloading and handling, warehousing and transport by rail or road, of supplies, goods and equipment destined for use in the area under the control of the Palestinian Authority.

"If the foregoing represents the understanding of the Palestine Liberation Organization, I wish to propose that this letter and your reply in that sense be regarded as constituting an agreement in the matter.

"Accept, Sir, the assurances of my highest consideration."

I have the honour to confirm that your letter accurately reflects our understandings and I agree that your letter as quoted above and my acceptance of it should be regarded as constituting an agreement between the Palestine Liberation Organization and UNRWA on the matter.

My understanding is that the Palestinian Authority will assume powers and responsibilities in the occupied Palestinian territories, including Jerusalem.

In conclusion, once again, I wish to put on record our great appreciation and gratitude to the Commissioner-General and the staff of UNRWA for the exemplary way they have carried out their mandate in rendering historic services and assistance to the Palestine refugees wherever they are, be it in Jordan, Lebanon or Syria. I trust that I can count on the continuation of these services both in the occupied Palestinian territories, including Jerusalem, and elsewhere, until the Palestine refugee problem has been resolved in accordance with principles of human rights and the relevant United Nations resolutions, particularly General Assembly Resolution 194 (III) and Security Council Resolution 237 (1967).

Accept, Sir, the assurances of my highest consideration.

ORGANIZATION, ON BEHALF OF THE PALESTINIAN
AUTHORITY, AND THE WORLD FOOD PROGRAMME
CONCERNING ASSISTANCE FROM THE
WORLD FOOD PROGRAMME.**

WHEREAS the Palestinian Authority (hereinafter referred to as "The Authority") desires to avail itself of assistance from the World Food Programme, and

WHEREAS the World Food Programme is agreeable to affording such assistance at the specific request of The Authority,

NOW THEREFORE The Authority and the World Food Programme have entered into this Agreement embodying the conditions under which such assistance may be given by the World Food Programme and utilized by The Authority in accordance with the general regulations of the World Food Programme;

ARTICLE I

Assistance Requests and Agreements

1. The Authority may request assistance in the form of food from the World Food Programme for supporting economic and social development projects or for meeting emergency food needs.

3. The Authority shall provide the World Food Programme with all appropriate facilities and relevant information needed for assessing the requests.
4. When it has been decided that the World Food Programme will give assistance in respect of a development project, a Plan of Operations shall be agreed to by The Authority and the World Food Programme. In the case of emergency relief operations, letters of understanding shall be exchanged in lieu of the conclusion of a formal instrument between the Parties.
5. Each Plan of Operations shall indicate the terms and conditions upon which a project is to be carried out and shall specify the respective responsibilities of The Authority and the World Food Programme in implementing the project. The provisions of the present Basic Agreement shall govern any Plan of Operations concluded thereunder.

ARTICLE II
EXECUTION OF DEVELOPMENT PROJECTS AND

Should there be more than one food assistance project in the country, the Authority shall designate a central coordinating agency for regulating supplies of food as between the World Food Programme and the projects and between the projects themselves.
4. The Authority shall provide facilities to the World Food Programme for observing all stages of implementation of development projects and emergency operations.
5. The Authority shall ensure that the commodities supplied by the World Food Programme are handled, transported, stored and distributed with adequate care and efficiency and that the commodities and the proceeds of their sale when authorized are utilized in the manner agreed upon between the Parties. In the event that they are not so utilized, the Programme may require the return to it of the commodities or the sales proceeds, or both, as the case may be.
6. The World Food Programme may suspend or withdraw its assistance in the event of failure on the part of The Authority to fulfil any of its obligations assumed under the present Agreement or any agreement concluded by virtue thereof.

ARTICLE III
Information concerning projects and emergency operations

1. The Authority shall furnish the World Food Programme with such relevant documents, accounts, records, statements, reports and other information as the World Food Programme may request concerning the execution of any development project or emergency operation, its continued feasibility and soundness, or concerning the fulfilment by The Authority of any of its responsibilities under the present Agreement or any agreement concluded by virtue thereof.

2. The Authority shall keep the World Food Programme informed regularly of the progress of execution of each development project or emergency operation.
3. The Authority shall present to the World Food Programme audited accounts of the use of commodities supplied by the Programme and of the proceeds of their sale when authorized in each development project at agreed intervals and at the end of the project.
4. The Authority shall assist in any evaluation of a project that the World Food Programme may undertake as stated in the relevant Plan of Operations, by maintaining and furnishing to the programme records required for this purpose. 2. The Authority shall apply the provision of the Convention on privileges and immunities of the Specialized Agencies to the World Food Programme's property, funds and assets and to its officials and consultants.
3. The Authority shall be responsible for dealing with any claims which may be brought by third parties against the World Food Programme or against its officials or consultants or other persons performing services on behalf of the World Food Programme under this Agreement and shall hold the World Food Programme and the above mentioned persons harmless in case of any claims or liabilities resulting from operations under this Agreement, except where it is agreed by The Authority and the World Food Programme that such claims or liabilities arise from the gross negligence or wilful misconduct of such persons.

ARTICLE V
Settlement of disputes

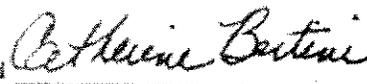

Any dispute between The Authority and the World Food Programme arising out of or relating to this Agreement or a Plan of Operations which cannot be settled by negotiation or other agreed mode of settlement shall be summated to arbitration at the request of either Party. The arbitration shall be held in Rome. Each Party shall appoint and brief one arbitrator and advise the other Party of the name of its arbitrator. Should the arbitrators fail to agree upon an award they shall immediately appoint an umpire. In the event that within thirty days of the request for arbitration either Party has not appointed an arbitrator, or that the arbitration appointed fail to agree on an award and on the appointment of an umpire, either Party may request the President of the International Court of Justice to appoint an arbitrator or an umpire, as the case may be. The expenses of the arbitration shall be borne by the parties as laid down in the arbitral award. The arbitrate award shall be accepted by the parties as the final adjudication of the dispute.

ARTICLE VI
General Provisions

1. This Agreement shall enter into force on the date on which the World Food Programme receives written notice from The Authority that the approval constitutionally required in Palestinian Jurisdiction has been obtained and shall continue in force unless terminated under Section 3 of this Article. Pending such approval, the Agreement shall be given provisional effect.
2. This Agreement may be modified by written agreement between the parties hereto. Any relevant matter for which no provision is made in this agreement shall be settled by the parties in keeping with the relevant resolutions and decisions of the Committee of Food Aid policies and programmes. Each Party shall give full and sympathetic consideration to any proposal advanced by the other Party under this Section.
3. This Agreement may be terminated by either party by written notice to the other and shall terminate sixty days after receipt of such notice. Notwithstanding any such notice of termination, this Agreement shall remain in force until complete fulfilment or termination of all plans of Operations entered into by virtue of this basic agreement.
4. The obligations assumed by The Authority under article I hereof shall survive the termination of this agreement under the foregoing section 3 to the extent necessary to permit orderly withdrawal of the property, funds and assets of the World Food Programme and the officials and other persons performing services on behalf of the programme by virtue of this Agreement.

Sec. DG

Excellency,

I have the honour to refer to your letter of 12 November 1997, concerning the terms of reference governing the work of the recently established UNESCO office in Ramallah.

As you know, Israel supports all efforts to improve the economic and social condition of the Palestinian population of the West Bank and the Gaza Strip. In accordance with this policy, we have encouraged and cooperated with UNESCO's Programme of Assistance to the Palestinian People.

Israel approves of the establishment of the UNESCO office in Ramallah, and views it as being responsible for coordinating and facilitating UNESCO's Programme of Assistance to the Palestinian People in the fields of education and culture. Such activities must, of course, be conducted in a manner which is consistent with the Peace Process and, in particular, with the agreements that have been reached between Israel and the P.L.O., including the Israeli-Palestinian Interim Agreement on the West Bank and Gaza Strip, signed in Washington, D.C. on 29 September 1995.

Israel recognizes that the Programme of Assistance to the Palestinian People is a broad programme, albeit limited by budgetary necessity. We, therefore, expect that the Director of the Ramallah office will have at his disposal appropriate means and staff to fulfill his mission. We believe it important, however, for the credibility and efficiency of the programme, to ensure that these means remain reasonable and proportionate to UNESCO's role. Thus, an international staff of 2-3 (including a driver) and a local staff of about the same size would be appropriate and acceptable.

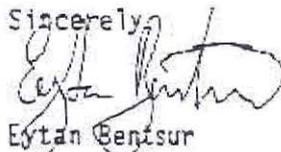

Finally, allow me to refer to the matter of the legal and administrative status of the office vis-a-vis the Israeli authorities. As you know, Israel is party to the Convention on the Privileges and Immunities of the United Nations. Israel is prepared to extend the terms of this Convention, as applied in Israel with relation to other U.N. agencies (such as UNDP and UNRWA) to the new UNESCO office, its foreign staff and related property and funds.

I believe that the application of the above arrangement offers solutions to the issues that have been raised by your staff concerning the functioning of the Ramallah office. Accordingly, I have instructed the staff of the Ministry of Foreign Affairs to begin to make the necessary arrangements and to coordinate with other governmental offices to ensure that the Convention is applied appropriately in all its aspects.

Sincerely,

Eytan Benisur
